Performance Notes

Indicates a "snap" pizzicato

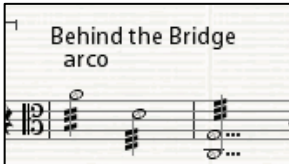

Indicates a fingernail pizzicato

In this pizzicato notation, the first note (in this case, grace note) is plucked normally, but the second square note is produced by releasing the string without re-plucking the note.

The cross symbols here indicate a left-hand pizzicato.

All "x"-headed notes are played behind the bridge. The string is indicated by the note, i.e. a "c" will be played behind the bridge on the c string.

Triangular noteheads indicate the highest possible, non-specific pitch available on the string. The string is indicated by the note choice, i.e. an "a" will be played on the a string. Do not attempt to match the pitch to a specific "in-tune" note from the Western scale.

This notation indicates an abrupt end to the note as soon as the harmonic sounds. The actual harmonic sound is not the point as much as the sound of the transition from the fundamental to the artificial harmonic.
